TED-TALK

## Impartance of Education

Importance of education tells us the value of education in our life. Education Everyone's life as it facilitates our learning, knowledge and skill. It completely changes our mind and personality and helps us to attain the positive attitudes. We must give importance to the education than other targets in life as it is the only source of real happiness in our life.

We all want to see kids going towards success which is only possible through the good and proper education. Every parent tells their kids from childhood about the importance of education in the life and all the advantages of education to make their mind towards better study in the future. Make your kids and children habitual of writing essays, participate in debates and discussion and many more skill enhancing activities in the schools.
