DEPARTMENT : PG CHEMISTRY-2019-20

BEST PRACTICE : CLEANING LABORATORY BACKYARD

Clean India mission has become popular among the masses. There is much talk on it. PG Department of Chemistry organized cleanliness drive under Swachh Bharat Swasth Bharat Abhiyana Programme on 30th August. All PG students along with the teachers of the department took part in the drive .

We started cleaning the backyard by plucking weeds and small shrubs. Then further started collecting plastic wastes in different bags and disposing them separately .The green plants were dumped in the pits already existing in the college to break them down to manure .

Some of us took brooms and started our job. later we all discussed the importance of sanitation and importance of disposing chemical bottles and waste littered by us . In the end we took oath of keeping our home .
