AND

BLDEA's SB Arts & KCP Sc ,(ITI / Polytechnic / Enggineering college)
College, BCA Programme.
Vijayapur

Objectives of NSQF Project

The Govt of India has brought out a revised centrally sponsored scheme of vocational of secondary & Higher Secondary education by integrating employability. education into school education. The scheme is operated within the National Skill Qualification Frame work which establishes a system of clear educational pathways from school to Higher education while providing certification of vocational skills. The project has been approved for the State of Karnataka, MHRD. GOI & accordingly Karnataka will be implementing the NSQF from the academic year 2014. The aim is to start the project at level-1 in 100 selected composite Govt. Schools in Karnataka with the goal to make students employable when they complete Higher Secondary education. The courses selected are industry driven based on National Occupational Standards. This project is expected to improve employability of the students passing from these courses because of industry driven inputs & exposure. Another expected outcome is reduction in school dropout rates & better attendance levels due to better job prospects through such a program.

NSQF project is to formalize the way the trainings as per National Occupational Standards (NOS) are conducted and to standardize the outcome of the trainings, i.e. quality of students with respect to both technical skills as well as work readiness for the entry level job roles in the relevant sector at the end of Level 4. Post Level 4, students have the options to go for employment or continue the studies.

WHEREAS, the institute agrees to allow the students of Govt Junior College for Gi (School Name) to have an *Industrial/Exposure/Field visit* and send *experienced/qualified staff* and *practical class for final exam* to the above mentioned school for the guest lectures.
