Report On Guest Lecture

Topic

"Cyber Crime And Security "

Resource Person

Prof. Chidanand Byahetti

For BCA

V -Sem

Date: 17-08-2019

Time: 12pm to 1pm

contd..

Description:

As the subject mentioned above the guest lecture has organized to give the complete awareness about the Technological good and bad impact on the real world scenarios by cyber crime. As it is the one part of their academic "Cyber crime and security" the lecture was went on with respect to the subject concern discussions including the various sections given in the syllabus and topics to be covered for the exam point of view.

Current generation has completely dependent on the digitalized equipment. To get-tough with this digital era, one must know the technological acquaintance and its impact on the generation. With regards many applications which are in use like what's App, face book, well known websites, search engine to know the world, hands on android applications, IOT usage like many things were discussed briefly. Students were interacted to pose with various classifications of cyber crime and its impact on the world have discussed. With this flow Sir has explained how smart we should be to use these applications being from CS background. What are the loop holes/misusage or drawbacks of these application were discussed. For example sending unnecessary text message and video/image in the group or to the specific will lead the attack of viruses and we be the victim for cyber crime by criminals.

Mainly, Sir has taken the session through the basic flow of syllabus structure which should help for students to face the exam, because, it is the new subject for their academic year.

Since all the concepts for I Unit to V Unit have glanced.

contd --

A. Types in cyber crime have taken into depth with all various categories with examples.
