Opinion on the Information Communication
Technology (ICT) conducted by the Department
of English.

The topic shown was about Noah's Ark.

In this story we got to know about the dedication put up by Noah in building the Ark, which the God had ordered him to build in a given specific time so that he could not face the destruction of flood. Noah built the ark before the flood arrived & also collected a pair of every birds & animals in the ark & also collected food for him & the animals as well. Noah's work was very selfless & with the help of Noah the birds & animals were saved from flood. Noah was successful in obeying the God's order & he stood up & saved his family & animals from a disaster of flood.

ICT class was on "Noah today". In that we saw "old story of Noah".

In the old story of Noah, he was a very virtuous person and he led his life very happily. One day the god came in his dream and said "Noah I am going to destroy this world in six months. For that you built a big ark and you save who believe on god."

According to the god's order, Noah built an ark and told to all peoples about the god's message but all were laughing at him and insulting him. One day the heavy flood came before that, Noah took one pair of animals and birds from all species. Heavy rain came and all the world was destroyed by flood and Noah saved his family and animals.

By Noah's story we can learn that one who believes in god, one who did a good thing, who is kind hearted, good people, they can only survive. But all bad things will destroy one day.
