FIRST AID DURING EMERGENCY ( CPR)

09/12/2018

**First aid** skills are kept simple on purpose so that people can remember and use them in an emergency to save at least one life. One set of goals of **First Aid Cardiopulmonary Resuscitation (CPR)** is an emergency procedure that combines chest compressions often with artificial ventilation in an effort to manually preserve intact brain function until further measures are taken to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest. We conducted CPR programme with Demo in our Battalion on 9<sup>th</sup>, Dec, 2018 along with 100 NCC cadets.
