## Report

Career orientated programme (add on course )  
the certificate course in soil and water testing conducted  
by the Department of Chemistry, during the academic year  
2015-16 .The main objective of this certificate course is to  
provide complete knowledge about water and soil testing.

The water test helps the students understand  
quality and edible water supplied by municipality, borewell,  
ponds and other water sources. The various parameters  
after testing water sample a clear report is given by the  
students which is more useful for the people to understand  
the quality and other contaminates present in the given  
testing water sample.

And the soil testing result and report provides  
a complete information about the other soil parameters .  
Water and soil testing allows to establish complete  
safeline values ultimately increase the knowledge of  
understanding specific issues of different water bodies.
