

## Editor's Note

The year 2019 had all the pluses of the real and enthusiastic relativism in each and every contrivance of the students. The Faculty were the spine for all their procurements. The last three months of the year had though minimal, but yet had high profile redemptions. This edition proves to be the rhinestone of the aspired feats. The reign of the winning tradition of Sports and the Academic achievements made the entire campus a look alike of the nano techies assembling the different elements and make it large in performance but perfectly tiny in its appearance. On the verge of the completion let's take an juxtaposed salvation note "Don't stop when you're tired. Stop when you're done". Thus continues .....
