A Report

The Orientation program in B.L.D.E.A's S. B. Arts and K. C. P. Science College, M.Sc. (CS) Programme was organized and discussed the Introduction to Academic, Co-curricular activities and Hierarchy of Management Information System was for M.Sc(CS) I semester students on 16th January 2023 from 11:00am to 1:00pm at LH-01.

The program was initiated by giving technical presentation focusing a brief introduction of Course, Department, and Various Cells in the college along with respective activities. The department faculties provided an overview of college and facilities which are available to the students, various cells and their activities and also sports and cultural activities.

At the start, the session was handled by the department Coordinator Prof. (smt) R.D. Joshi, the detail information about College, Course Importance and strategies, interdisciplinary course details and importance of that in overall development of students' future. The session further, continued focusing on Sports and Cultural Cell, Student Grievance Cell, POSH (Prevention of Sexual Harassment) Cell, Woman Empowerment Cell, Student Council Cell and Red Cross Cells involved in our college. How they help them to develop the individual personality in personally and professionally.

Moving on to the importance of course in all aspects of life, Dr. D.A.Mulimani given the awareness about the PG students responsibility towards the career and the role of each faculty and the syllabus which help them to reach their goal through this M.Sc.(CS) Programme.

Explained all possible opportunities after the PG, so that they can set their goal to face them accordingly. Also explained various research activities handled through I.Q.A.C. use to conduct in every academic year and the individual student role to involve in each activity (academic and cultural). Details given about the students counseling cell and placement cell activities along with training for the competitive exams and the skill oriented programs. These all will help them to face the interviews in the final year to face the competitive exams.

Prof. Pavankumar Mahindrakar delivered a brief lecture on various services and the infrastructure of lab and importance of Learning Management System (MOODLE) and also discussed about Research, national and international paper publication, conference, workshop, project which has been implemented on seed money and webinars and the departmental TED TALKS and its importance in today's technologies. He also explained about placement cell activities and campus drive in institutions, industrial visit and career guidance program for post-graduation course and also explained placement cell policies and governing events which take place in the institution.
