SEMINAR REPORT 2019 – 20

Students from various semesters have been selected for the seminar who are good in academics and they have been given a particular topic to present.

Properly utilizing the advantages of seminar is to take seminar on their subject topics. We are conducting seminars of this type, which will help the students more to understand the subject this would give them a chance to collect more information about the seminar topic they are provided with.

The result is that they would learn the subject well. As they have to acquire knowledge about the subject of their own. So by conducting seminars in a proper and better way so that the students can interact in that, it will be the best and the most effective way to study. So seminars have an important role to play in the curriculum.
