TED Talk Report OCT 2018

Date: 13-10-2018

Department of PG studies in Physics arranged TED talk on 13th of October 2018, Saturday at 11:00am in physics laboratory for M. Sc I and III sem students. The two talks were arranged. The first talk was on '**The fascinating Physics of everyday life**' by **Helen Czerski**, Physicist, at TEDx Manchester England given on February 2017. The talk was about how physics phenomenons are hidden on simple incidents of our day-to-day life. And the second talk was on '**How simple ideas lead to scientific discoveries**' by **Adam Savage**, critical thinker, at TEDEd. The talk gave simple examples and creative methods that were followed to make great discoveries.

After the talk the brief discussion was carried out with students by faculties. The participation of total of 34 students was worth appreciation.

TED Talk Report March 2019

Date: 14-03-2019

Department of PG studies in Physics arranged TED talk on 14th of March 2019, Thursday at 02:00pm in Physics laboratory for M. Sc II and IV sem students. The talk was on '**What the discovery of Gravitational waves means**' by **Allan Adam**, Theoretical Physicist at TED Vancouver B C given on February 2016. The talk lays out the details and important milestones in the discovery of gravitational waves. And another talk was on '**Is our universe the only universe?**' by **Brian Greene**, physicist at TED Longbeach California. The talk was related to multiverse due to different shapes of n-dimension.

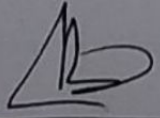

After the talk the brief discussion was carried out with students by faculty. There was healthy interaction in the hall. Total of 34 students participated during the talk.
