English has become a universal language today. It is commonly used as a medium of communication, of information and use through which barriers of boundaries between between the states and countries have been crossed. Many state Governments have realized the importance of English. Poor language means no jobs. A poor ability to speak effectively in today's scenario is probably the greatest single bar to advancement in any job. Further, it is found that the students are not trained in skill-based activity. There is no atmosphere to build communicative skills in the present curriculum. There is no atmosphere to build communicative skills in the present curriculum.

Looking into the aspects it is most reasonable and appropriate to provide the facility of studying 'Communicative English' to the students.
