

NATIONAL SCIENCE DAY 2016

The Karnataka Science and Technology Academy, Science and Technology Department Government of Karnataka has been promoting science by organizing various programs all over the state in schools ,colleges, Universities and other academic Institutions. The Government of India is observing February 28th as “National Science Day” since 1987.It is being celebrated throughout country to develop scientific temperament among the students. It is celebrated to commemorate the day on which Sir C V Raman discovered the Raman Effect. The motto of celebration is to spread a message about the significance of scientific applications in the day to day life. The objective is to develop scientific temperament and inculcate research attitude among the students. It is also emphasizing the students to opt for the basic science which is the need of hour. The focal theme for 2016 is “To raise public appreciation on scientific issues for development of nation”.

INAUGURATION

The national science day was inaugurated by Dr. H. Niranjana Murthy department of Botany Karnataka University Dharwad, on 29th February 2016, at 10 am in the seminar hall. In his inaugural speech he called upon the students to dedicate themselves for the cause of the science. He emphasized that science is inseparable part and parcel of our life. Dr. Murthy highlighted on the theme i.e. “Science for common man” and said that students are tool or barrier to communicate science to society, and then only science knowledge serves the purpose. Science should be society oriented not just confined to our labs.

Chief Guest Dr. Kushal K Das Department of Physiology, B L D E University's Shri B M Patil Medical College, Hospital & Research Centre Vijayapur, and Recipient of DR.Raja Ramanna, State Scientist Award. He was felicitated on this occasion. In his guest speech he emphasized on the importance of the basic science. Science should reach common man and he should get benefits of the scientific inventions then only we can create awareness of science and help the people to think differently and dream for the revolution in the field of science.

President of the function Prof .B R Patil, Administrator B L D E Association Vijayapur ,called upon the students to make best use of this kind of programs to develop scientific temperament and research culture. He coated many scientist names who contributed to the science. Need of the hour for younger generation is to develop science culture and communicate this knowledge to the common man, by doing so they can become great barrier to spread science awareness to the society.

Co-coordinator of National Science Day 2016, Dr. M B Mulimani Head Department of Botany, introduced the guest to the audience. Dr. S T Meharwade Head Department of Hindi proposed vote of thanks. All the science faculty and students were taken part in the inaugural function.

THE THIRD TECHNICAL SESSION

The third technical session was arranged for student's presentation. B.Sc .VI semester students from both CBZ and PCM combination were participated. They presented on "Innovations in Science" and "science and religion". A good discussion took place in the presentation.

VALEDICTORY SESSION

In the valedictory session Dr.Raghavendra R Kulkarni , Head department of Pharmacology B L D E College of Pharmacy presided over the function. Dr. S B Devernavadagi, Chief Scientist Regional Agricultural Research Station, Vijayapur was chief guest.

Dr. Devernavadagi spoke on the correlation between Agricultural Science and common man. He stressed upon the scientific knowledge in the field of agriculture is the need of the hour. As agriculturists are considered to be boon for

the nation development without their scientific awareness in agriculture it is difficult for the country to progress. He coated many examples of progressive formers, who are really involving and showing good response to the scientific agriculture practice.

Dr. Raghavendra Kulkarni gave presidential remarks. This kind of programs will have lots of impact on the student's currier. History says most successful scientists in the world has contributed in their early age. He congratulated the KSTA organization for planning and supporting this kind of programmers to inculcate scientific tera amongst the students. He called upon the student to take interest in the basic science.

Dr. U S Pujari, Department of Chemistry proposed the vote of thanks. The entire science faculty were witnessed the function. Dr. K G Pujari .Principal S B Arts and K C P Science College graced the function.

The college organized an inter college competition at district level in quiz, drawing and essay writing competition on the theme "To raise public appreciation on scientific issues for development of nation" The best three winners in each competition were given a cash prize of Rs 750/-, 500/- & 250/- and a certificate of merit.
