About the Workshop: The Workshop aims to provide in depth theoretical knowledge about the principle of the instruments. Structural characterization of materials is a routine yet an important step in preparation of materials. Analytical tools like XRD, SEM, TEM, AFM are used in material science refers to the use of external technique to probe into the internal structure and properties of materials. The scope of this is mainly focused on providing the basic knowledge on the various characterization techniques such as FTIR, UV, XRD, SEM, TEM, AFM, TGA, etc

About the Institute: An educationally and economically backward district Vijayapur had a bright ray of hope when men of philanthropy founded BLDE Association with a visionary zeal in 1910. They were inspired by the belief that education was the only means to chart a progressive future. Behind the inception of this association were the vision, foresight, and relentless efforts of eminent lovers of Knowledge like Vachana Pitamaha Dr. P. G. Halakatti, Shivayogi Sangana Basava Swamiji of Banthanal and their disciples. Further, its patron the late Shri B. M. Patil by the devotion and dedication of the present Management headed by Shri M. B. Patil, President of B.L.D.E. Association, Vijayapur & Honorable Minister of Water Resource Govt of Karnataka and the Association has heralded its new wings in various disciplines.

About the college and Department: S.B Arts and K. C. P Science college was established in 1945. The department of PHYSICS was established in the year 1952. Further, it was strengthened by introducing Electronics in 1985. The department offers B.Sc with Physics and Electronics as one of the three subjects of equal importance. In the year 2015 PG Dept of Physics started with well equipped laboratory.
