Subject: Request for the permission to visit BLDE(Deemed to be University)
Shri B.M Patil Hospital, Medical College and Research center's sewage treatment
plant

Respected Sir,

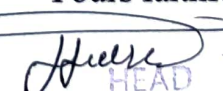

As per the curriculum a visit to Sewage treatment plant is to be organized for Bsc V semester students. Our students have on-site Industrial Project in their practical syllabus. Based on the information and learning students will be guided to develop a project report which is to be submitted during final practical examination. Hence kindly allow us to take students for visit to BLDE(Deemed to be University), Shri B.M Patil Hospital, Medical College and Research center's sewage treatment plant on 21/12/2021 to 23/12/2021.

Thank You

DEPARTMENT OF BOTANY

REPORT ON

ONSITE VISIT TO SEWAGE TREATMENT PLANT

Department of Botany had organized onsite visit as per the curriculum. A visit to Sewage treatment plant was organized for Bsc V semester students as on-site Industrial Project was mentioned in their practical syllabus. After getting permission for visit 106 students were divided into three batches and visit was scheduled from 21/12/2021 to 23/12/2021 for three days.

Mr. Ramesh Kamble, site supervisor of Sewage Water Treatment Plant provided assistance and explained various stages of sewage treatment in their STP. The sewage water treatment plant receives the sewage from the Shri. B.M Patil Hospital, Medical College and Research center, Vijayapur. He told the hospital is of 1400 bed capacity and outputs 350KLD's of sewage water every day.

The sewage water will be processed through various stages, in preliminary phase filtration is made to separate solid pollutants and further subjected for primary treatment which mainly deals segregation of grit and effluents. The further treatment would be secondary treatment which includes biological treatment in aeration tanks to degrade organic wastes naturally. Various chemicals also will be used to segregate and digest chemical and oil pollutants. After the treated water meets the standards mentioned as pollution control board tertiary treatment will be carried out the pass treated water through the filtration unit. Finally the treated water is chlorinated and used to maintain garden at BLDE (Deemed to be University),

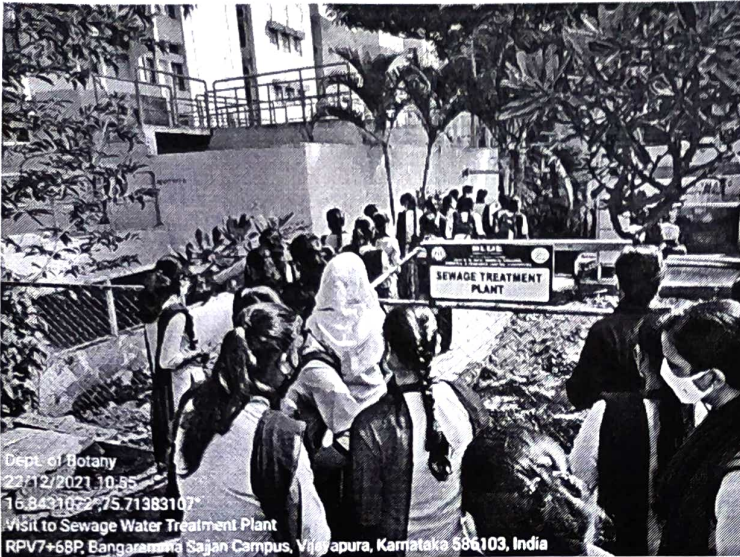

Based on the information and learning students gained during the visit they were guided to develop a project report which is to be submitted during final practical examination.
